

Company Profile for Sheet Metal Fabrication

Established in 1991, SSH Automation has its core business in Industrial Automation, targeting sheet metal fabrication projects for machineries. Specialized in the area of automation engineering, we value-add by providing a one-stop solution for metalworking and machining services.

Total Headcount: 17 (10 operators/ technicians, 3 engineers)

Certifications: BizSAFE Level 3

Sheet Metal Fabrication + CNC Machining

- Sheet Metal Fabrication
- CNC Laser Cutting and Bending
 - SS304/316 0.3mm to 12mm
 - AL5052 0.5mm to 12.7mm
 - Mild Steel 0.5mm to 22mm
- CNC Machining (3 & 5-Axis)
- Welding Fabrication
 - Able to weld SS, M'S and Aluminium material
- Quality Control equipment

Significant Machineries for Metal Fabrication

- AMADA 4KW CNC Laser Cut Machine Centre (CO2) x 1
- AMADA CNC Bending Machine Centre (100 Ton) x 1
- DMG Universal Milling Machine DMU-50 (5-axis) x 1
- Foca Seiki CNC Milling (3-axis) x 1
- Timesavers Belt Grinding & Brush Deburring Machine x 1
- Fibre Laser Marking (30W) x 1

We look forward to working with you!
